

Home Page:

Done: Overall look

Future: have the “Apply Here” button go to a page to apply. This is a feature that they didn’t ask for but I believe that it would be easier for people to apply without having to take the extra step of trying to call someone.

About Page:

Done: Overall look, The about them content that they provided.

Future: none

Rules Page:

Done: Overall look, put up the rules that they currently have.

Future: make it to where they can add and edit their rules.

Pictures Page:

Done: Overall look, put some of their photos up

Future: More Responsive design friendly, When you hover over a picture it gets bigger letting user see it better then hovers off goes back to normal size dynamically.

Tips:

Done: Overall look, dynamically will add tips allowing you in the admin mode to add, edit and remove tips.

Future: none as of right now.

Plots:

Done: basic look

Future: add more to it.

Overall Look:

Still need to work on the responsive design for the phone size.

Admin Pages:

Can right now login and out, but the login feature is easily gotten around due to trouble with the system remember that you just login.

Allow the admin to easily change more stuff.
